August 27, 2020

To Our Residents' Family Members:

This week, we can continue to report that all residents and staff remain negative for COVID-19. We are monitoring residents for signs and symptoms during each nursing shift, and all staff are being tested weekly. We are following infection prevention guidelines to keep everyone within the facility safe and healthy. Some of these measures include handwashing, wearing of masks and other personal protective equipment, daily temperature screenings, daily symptoms questionnaires, social distancing, and various other precautions.

We are working on our website so that all COVID-19 status updates will be presented to you online. Important information, such as St. Joseph's current COVID-19 numbers, weekly activities schedule, weekly menus, weekly COVID letters, and teleconference details, will be accessible on our website. The teleconference call will be held by our social worker, Stephanie, on the same day and at the same time every week. The purpose of the teleconference calls is to continue our transparency with you and allow you an additional opportunity to receive information and ask general questions related to COVID-19 and St. Joseph's. Please check our website for teleconference details as they will be posted in the near future.

We will continue to provide you with the most updated information as it is available to us. Please call our center at 732-750-0077 with any questions or concerns about your loved one. We remain united in prayer.

Blessings,

Sr. Elzbieta Lopatka, LNHA
