November 19, 2020

To Our Residents' Family Members:

No news is good news again! All residents and staff remain negative for COVID-19. Residents are monitored daily for signs and symptoms, and staff are tested weekly. We continue to take infection prevention precautions.

On Tuesday, November 17, the NJ Department of Health visited our facility to conduct an infection prevention survey. The surveyors were present for most of the day. We are proud to let you know that St. Joseph's passed the survey with **no** deficiencies.

Indoor visitation is going very well so far. Beginning Monday, November 23, all visitors will be required to take a COVID-antigen rapid test prior to the visit. This is mandated by the NJ Department of Health until December 7, 2020. We appreciate your cooperation. We will continue to monitor the visits and, if all goes well and more time slots are needed, we will be glad to add more availability.

As Thanksgiving approaches, we would like to wish you and your family a happy one! You are a part of the St. Joseph's family, and we are grateful for you. Take this time to reflect not on what you wish to obtain but what you already have and may have forgotten is so very special.

We will continue to provide you with the most updated information as it is available to us. Please call our center at 732-750-0077 with any questions or concerns about your loved one. We remain united in prayer.

Blessings,

Sr. Elzbieta Lopatka, LNHA
