December 18, 2020

To Our Residents' Family Members:

All nursing home residents and all staff remain negative for COVID-19 this week. Unfortunately, one assisted living resident tested positive for COVID-19. The resident is asymptomatic and was retested with the results of the second test being negative. She was moved to an isolation room as a precaution where she will stay for two weeks. All residents continue to be monitored for signs and symptoms, and staff are tested weekly for COVID-19.

Window visits resumed on Saturday December 12 for nursing home residents and continue to be available to family and friends. We are asking that you call in advance to schedule a window visit to make visitation smooth for everyone. We are following the indoor/outdoor visitation schedule for time slots. Window visit times will be: 10am, 11am, 2pm, 3pm, and 4pm daily. We are not asking that you give us a specific amount of notice but the longer you wait to schedule, the less likely your desired time slot may be available. Generally, at least one day's notice would be ideal.

For the next two weeks, from December 20 to January 3, we will be holding window visits through rooms bordering the garden on the side of the nursing home (for nursing home residents). We are doing this to provide more time slots for you to visit your loved one. We know how important it is for both you and them, especially during the holidays.

We are wishing you a Merry Christmas and healthy, happy holiday season from your family here at St. Joseph's!!

We will continue to provide you with the most updated information as it is available to us. Please call our center at 732-750-0077 with any questions or concerns about your loved one. We remain united in prayer.

Blessings,

Sr. Elzbieta Lopatka, LNHA
