January 20, 2022

To Our Residents' Family Members:

We have seven residents in the nursing home that are still positive for COVID-19. All are stable with either mild or no symptoms. In addition, eight residents are in isolation due to possible exposure to COVID-19. All residents are monitored daily for signs and symptoms. We are following all state guidelines and protocols. Due to the COVID-19 outbreak, we continue to test all residents and staff every 5-7 days. Unvaccinated staff are tested twice weekly according to county infection rates and NJ guidelines for the virus.

We would like to reinforce that the State of New Jersey is at "severe risk" for people contracting the COVID-19 virus and are asking family and friends NOT to visit with the exception of End-of Life and Compassionate Care visits. We cannot enforce a "no visitation" policy as we must follow the Department of Health's Executive Directive to allow visitation. But we also need to keep our residents safe. If you do visit your loved one, you must follow the **Core Principles** of COVID-19 infection prevention and sign the **Outbreak Visitation Consent Form**. Please wear mask that cover your nose and mouth during the entire visit and use hand sanitizer at the desk when signing in. The visiting hours will be open from 9am to 5pm daily. We will be screening all visitors prior to the visit starting. If any visitors are feeling sick or have symptoms of COVID-19, we ask that they visit another time when they are feeling better. We are sure that you are already aware of this surge in COVID-19 infections, but our top priority at St. Joseph's is your loved one's safety.

We will continue to provide you with the most updated information as it is available to us. Please call our center at 732-750-0077 with any questions or concerns about your loved one. We remain united in prayer.

Blessings,

Sr. Elzbieta Lopatka, LNHA
